**CIRCULAR**

**Sub:- Regarding Biomedical Waste Management 2016 rules.**

In order to implement the new Biomedical Waste Management 2016 Rules, in the Institute, Prof. Malini Shariff, Nodal Officer, Biomedical Waste Management, requires the following:-

1. Type of BMW generated in your facility/department/laboratory.
2. If any pretreatment is being done and if yes what method is employed.

The above information may be submitted to Nodal Officer, BMW Management, VPCI, on priority basis which will help to formulate procedures to be applied in the Institute.

This is being issued with the approval of the competent authority.
