CIRCULAR

Subject: Functioning of Medical Device Adverse Event Monitoring Centre (MDMC) of Meteriovigilance Programme of India (MvPI), MoHFW, GOI

Vallabhbhai Patel Chest Institute is a Medical Device Adverse Event Monitoring Centre (MDMC) of Meteriovigilance Programme of India (MvPI), MoHFW, GOI and functions on the lines of MvPI Programme to collect and collate data on adverse events associated with the medical devices and report the same to National Coordination Centre (NCC) from time to time.

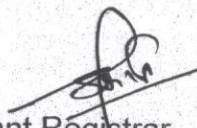

Aims & Objectives of MvPI are as under:

- To collect data on medical device related to adverse events (MDAEs)/ malfunctioning of equipments systematically and scientifically.
- To create awareness among healthcare professionals about the importance of MDAE reporting in India and to eluate the benefit-risk ratio of medical devices for patient safety.

All Head of the Departments are requested to report Medical device-associated adverse events to the undermentioned:

Dr. Neha Sharma
Medical Device Adverse Event Monitoring Centre (MDMC)
V.P. Chest Institute
Mobile: 9736784079

This issues with the approval of the Competent Authority.
